

Before coming into the Drug Court Program I had a lot of obstacles in my life. My kids was in a foster home, hadn't had my own home in 17 years, no car hadn't kept a job for over a year in 17 years. Because of this and my addiction for over 25 years a lot of people, Defacs, Probation; lawyers ect didn't think I would make it or that the program could help me. I am thankful I was giving the chance to learn and prove myself. I am now a sober successful productive member in society. While in the program I built a strong foundation. I now have custody of my children for a year now my own home for a year now, a car, & maintained a job for going on 2 years

I'm living proof that this
program can save and
change lives.
